

Disposable PVC Gloves

Synthetic PVC material is relatively tough and strong, resist water and abrasion, and are excellent electrical insulators. They are not ruined by prolonged contact with water, oils, foods, or common chemicals. This makes them a superior key component for medical grade gloves. It's widely used in the fields of hotel, hospital, dye industry, semiconductor hard disk, chemical and electronic industry, pharmacy industry, painting and coating industry etc.

Description:

Material: Synthetic PVC material, powder-free

Color: clear

Size: S,M,L

Length: 9 inch

Features:

- Ambidextrous-fits either hand
- Durable & Stretchable; flexibility and light weight
- Odor free, results from special formulations
