About Value

VALUE CERAMICS

+ The COMPANY Introduction

Value ceramics, located in Nanzhuang town-- the ceramic capital of China--is a large--scale modern enterprise integrated with development and research, production and sales.

The company has brought in the latest equipment from Italy, adopted the most advanced producing technology and management method, and also hired field experts and technology consultant from all over the world perennially. Meanwhile, the company enjoys a professional team with talented workers. Sticking to the principle "Quality Oriented, Service Concentrated, Value You, Value Us!" , enjoying the ISO9001 certification, the products of Value ceramics meeting GB/T4100.1-1999 and GB/T4100.5-1999 standard sell well to countries and regions around the world.

Aiming at being the "Admired Model of the World" , Value owns unique method to build up company culture, together with advanced management, continuously optimized sales channel and integrated information flow, the company provides its customers with advisory, direction and after sales service during the selling process, trying to achieve sustainable development and establish a win-win relationship with the customers.

Value ceramics will develop with the time as always, create higher brand value with technology, and provide you with a better life.

PILATES Series

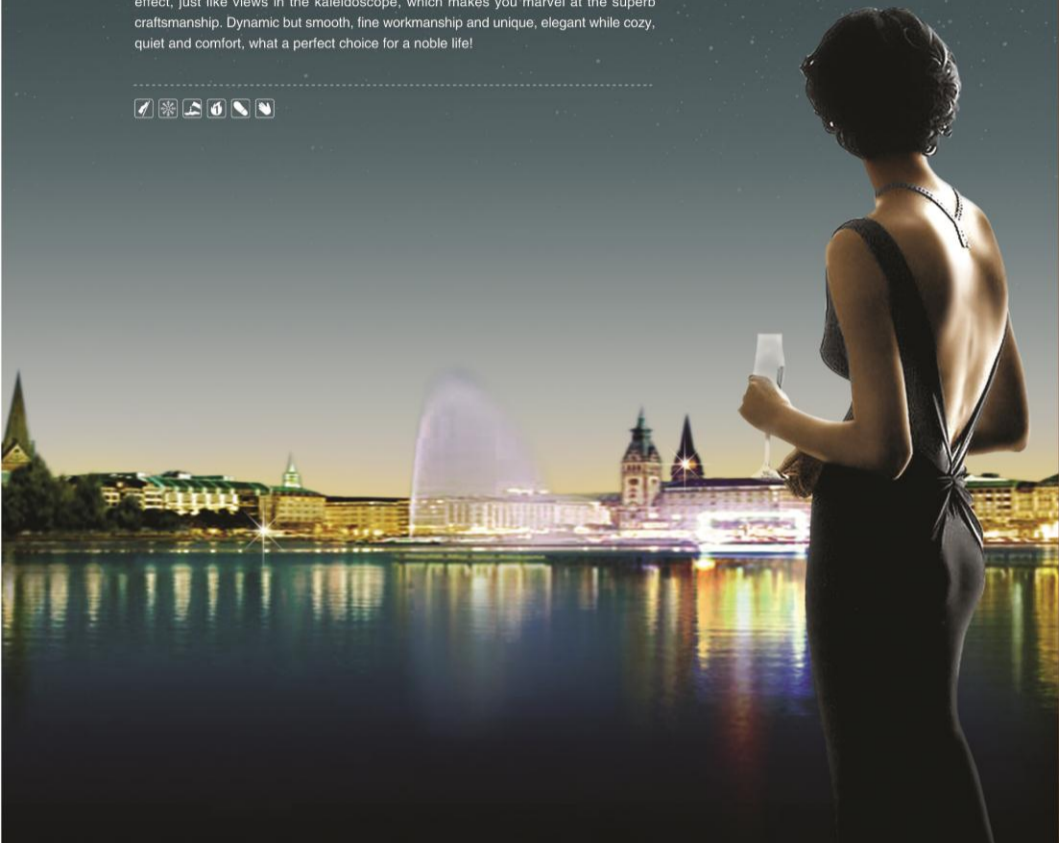

Size: 600 × 600mm 800 × 800mm

Technical features:

With ultra-fine powder double hedging technique, creates the feeling like ripples of the rain, while the thin flowing lining and pure powder make the surface look like filled with petals. Also, multi-times ultra-fine powder covering make the texture overlay naturally, achieves the natural stone effect with clear layer.

Product features:

Delicate and transparent, clean and pure, the tile surface shows a magically changing effect, just like views in the kaleidoscope, which makes you marvel at the superb craftsmanship. Dynamic but smooth, fine workmanship and unique, elegant while cozy, quiet and comfort, what a perfect choice for a noble life!

LEISURE JOY

A hint of warmth spread in the human oriented design, different layering directions burst into the joy of guest welcoming. At this very moment, the gap between business and people vanished.

CRYSTAL Series

Size: 600 x 600mm 800 x 800mm

Technical features:

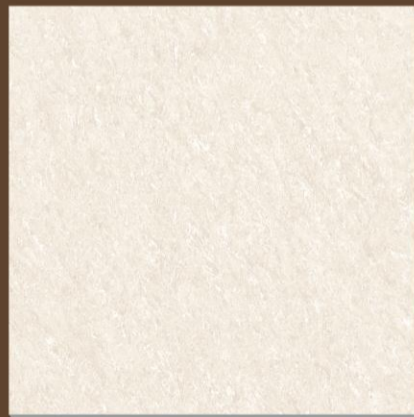

This series is based on the first generation micro powder tile, melting in certain crystalloid glaze during firing; it is the updating product of submicron powder tile. Selecting high quality raw materials, grinding delicately, with chemical ingredient, applying computer control feed line system, after high temperature and high pressure firing with microcomputer monitoring, decide the excellent quality of the product right from the beginning.

Product features:

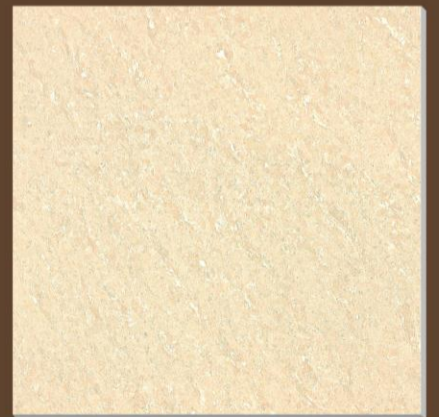

Besides the fine features such like high abrasive resistance, high rupture strength, low water absorption rate of submicron powder tile, this series looks more tridimensional resulting from the firing with crystalloid glaze, it enjoys more clear and exquisite texture, balance but no repeating, similar look with the natural stone makes it perfect decorating material.

NAVONA Series

Size: 600 × 600mm 800 × 800mm

Technical features:

Using the "lava spewing" feed line technology, which deduces the forming of natural stone, from the spring up of the lava, changing, condensation to petrification, showing the whole subtle processing of nature stone including lava flowing, sinking, converging and recreating. The tile totally shows the dynamic form of natural stone created by the external environment and geologic feature, breaking through the non-regeneration limit of natural stone.

Product features:

Not only achieves the processing effect of natural stone forming from the inherent materials choosing, also produces tiles that enjoy natural color, natural texture and natural touching feeling under an imitating environment with delicate control. The total effect shows a perfect beauty of natural stone which will be fascinating when apply in decorating space.
